

SOME SUN IS GOOD. TOO MUCH IS BAD.

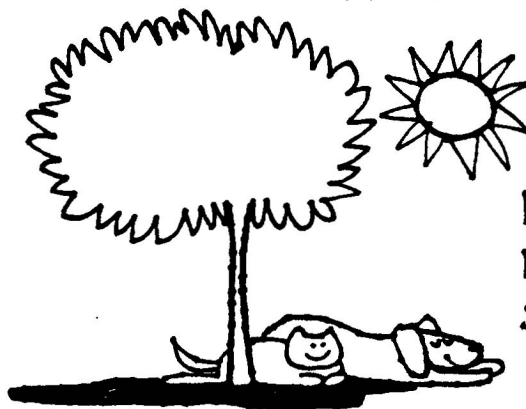

IF YOUR PET IS IN THE SUN, ALWAYS PROVIDE SOME SHADE.

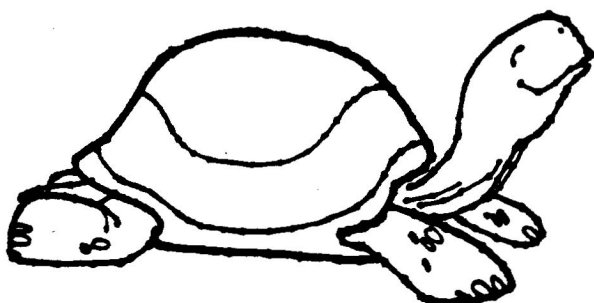

SUN IS FUN, BUT TOO MUCH CAN OVERHEAT AND KILL AN ANIMAL.

DON'T PUT A FISH BOWL OR
AQUARIUM IN STRONG SUNLIGHT.

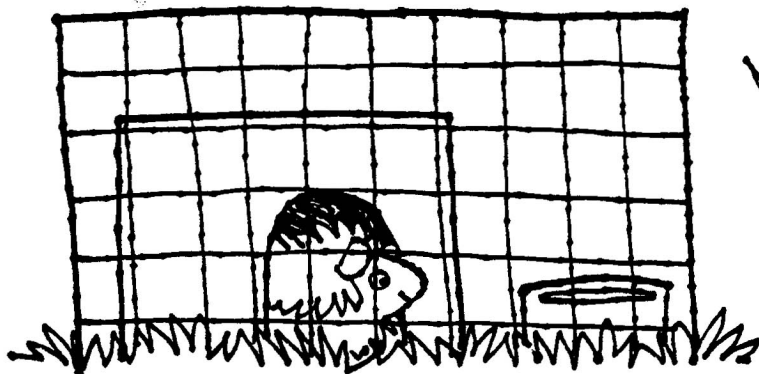

DOGS AND CATS
NEED SHADE ON
SUNNY DAYS.

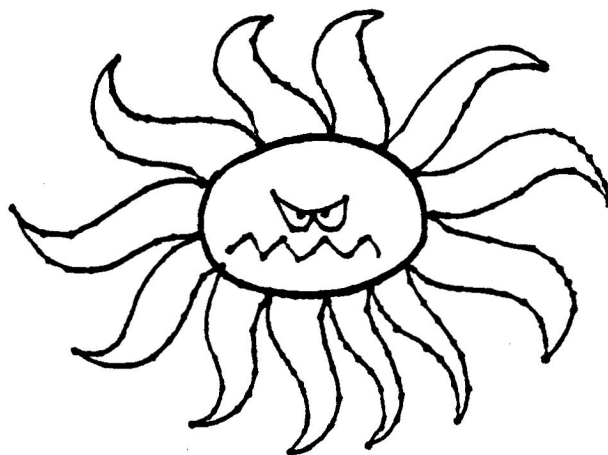

REPTILES LOVE AND NEED SUNSHINE BUT
WILL DIE IF THEY GET TOO HOT. PROVIDE A
SHADY PLACE FOR THEM TO ESCAPE TO.

PARTLY COVER
YOUR BIRD'S
CAGE IF YOU
SET IT OUTSIDE.

A BOX CAN BE A SHADY PLACE.

ON VERY HOT DAYS, BE SURE YOUR
PETS HAVE COOL SHADE TO BE IN -
OR KEEP THEM INSIDE.
